

# LET'S SCREW A SPINNER

## TOOLS

SCREWS

A SCREW DRIVER

MAGIC CARDBOARD

A CUTTER

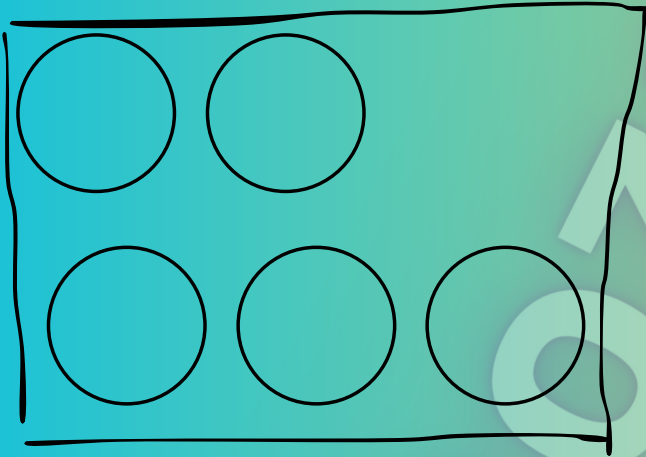

A HOLE PUNCHER

## I. Gather Your Materials

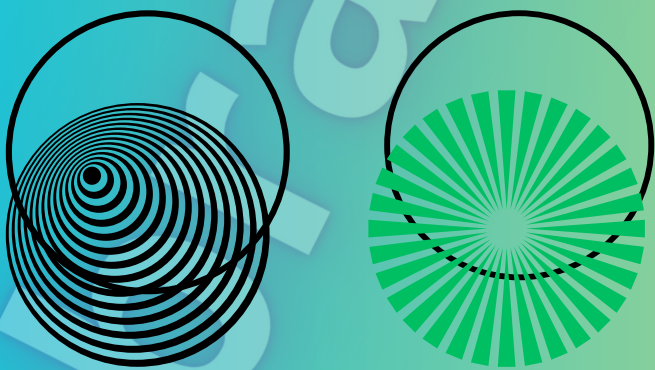

You'll need a piece of cardboard and our tool kit.

2. Cut out circles from the cardboard using the diameter shown in the example (we recommend printing the illusions from this document and tracing them onto the cardboard).

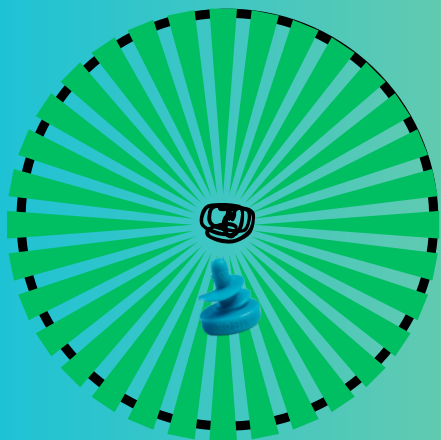

Prepare the Circles

3. Use scissors to cut out the circles, and then place the paper circles on top of the cut-out cardboard pieces.

## Assemble the Top

4. Poke a hole in the center of the circle and screw in a long screw.

5. Add another screw on top of the first one. This top screw will act as the handle.
