HOW TO MAKE A CHRISTMAS TREE

1. Using the template, measure and cut out the triangles.

2. To crease the cardboard, use the ring tool and hole punch it on the fold lines.
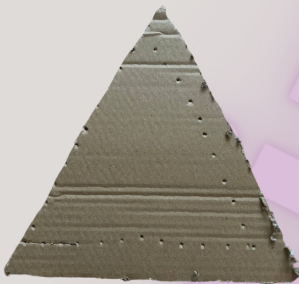

3.1 triangle is done, repeat these steps to the remaining triangles
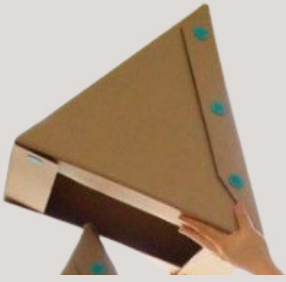

4. Punch holes using the ring tool to connect triangles later

5. Each module uses four identical triangle panels. Place the flap of one triangle over the edge of the second and align the holes. Screw in place.

7. Fold in the flaps below and screw the corners together to complete the triangular module
